

Above Ground or Below Ground — Picture Sort

Name: _____

To the adult helping: Cut out the 3 picture cards below. Show one card, say its name out loud, and ask the student to place it on the correct mat. The student can place the card, point to the mat, or you can guide their hand — any of these is fine.

TEACHER NOTE — MODIFIED OUTCOME

Student sorts picture cards of plant parts (root, stem, leaf) by where they grow — below the ground or above the ground — with increasing independence. Confirmed with IPP team. Words "root," "stem," and "leaf" are said aloud as exposure; not assessed.

BELOW GROUND

ABOVE GROUND

Picture cards — cut apart

Say the name as you hand over each card.

root

stem

leaf

TASK STEPS (TEACHER SCRIPT) — USE THE LEAST HELP FIRST, ADD MORE ONLY IF NEEDED

Step	What the student does	Prompt level
1	Look at the picture card	Independent → point to picture → "Look here" + point

2	Decide where it grows	Independent → "Is this above the ground or below the ground?" → point to correct mat
3	Place the card on the mat	Independent → gesture toward mat → guide hand
4	Repeat for each card	Same sequence; prompts fade as steps repeat

I could sort the plant parts:

By myself

With a little help

With a lot of help
